

**The Oasis of Kingsport would like to thank everyone who participated in the “United Way of Greater Kingsport Week of Caring” in June.**

Also, a big thanks to First Presbyterian Church and the FPC Outreach Committee for funding the Oasis Pavilion project which began in February of this year with the pouring of the concrete slab. The second part was the construction of the pavilion itself, which was completed through United Way during their recent week of caring where volunteers helped to complete community projects. The pavilion construction was completed by volunteers from Industrial Reliability and Repair (IRR) of Kingsport. Allen Wright, Bob Stoots, and Mike and Martha Pendley of FPC also volunteered to complete projects at the Oasis.

Thanks to Allen Wright and Mike Pendley for installing a new front door.

Thanks to Bob Stoots for helping Martha Pendley, Shantell Bogle, Amy Reyne, and Gail Newton sand and paint new shelving for the Children's play area.
